Result on the Appeal to the Supreme Court of Indonesia and update on International Arbitration against the Republic of Indonesia

Churchill Mining plc (AIM: CHL), advises that further to the RNS Release of 3rd April 2012 regarding notations on the Indonesian Supreme Court's register of cases showing rejections of the appeals by Churchill/Ridlatama, the written decisions confirming these rejections have been delivered to the Samarinda Administrative Court and received by Churchill/Ridlatama.

"We are disappointed in the written decisions confirming the rejection of our appeal. We are underway with the International Arbitration claim against the Republic of Indonesia to seek a legitimate remedy for our shareholders and protect our rights as a foreign investor in Indonesia," said Churchill Mining's Chairman David Quinlivan.

Churchill's appeal was launched to overturn the decision by the Administrative Tribunal in Samarinda, East Kalimantan. The Supreme Court's decisions affirm that the decrees of the Regent of East Kutai revoking the four mining licences that make up the East Kutai Coal Project (Churchill 75% interest) were validly issued.

The Company's lawyers will arrange for official translations of the Supreme Court's decisions to be placed on the Company's website at www.churchillmining.com. The Company will when appropriate provide an update on steps it may take in relation to possible Civil Review of the Supreme Court's decision.

International Arbitration under the United Kingdom - Indonesia Bilateral Investment Treaty

Churchill has filed a claim at the International Centre for Settlement of Investment Disputes ("ICSID") in Washington D.C. against the Republic of Indonesia. The Company is actively moving forward with the claim against the Republic of Indonesia for direct breaches of Indonesia's investment laws and Indonesia's obligations under international investment treaties.

The Company will provide further updates on the progress of the International Arbitration claim when available.
