AIM:CHL

Churchill Mining PLC ("Churchill" or "the Company")

Interim Results for the six months ended 31st December 2007

Churchill Mining PLC announces its interim results for the six months to 31st December 2007.

Highlights

- Profit of £986,248 or 2.11 pence per Ordinary Share
- Acquisition of 75% stake in the East Kutai Coal Project (EKCP) in Indonesia, a discovery of potential world-class size
- Ongoing exploration success at East Kutai Coal Project during the half year
- £10 million share placement to institutional investors which will allow the company to accelerate its drilling programme at the ECKP and begin mining scoping studies; and
- The successful divestment of the South Woodie Woodie manganese project into a new Australian Securities Exchange (ASX) listed company: Spitfire Resources Ltd.

Commenting on the results Paul Mazak, Managing Director of Churchill Mining said: "The past six months have been integral in the development of the Company. The acquisition and exploration of the East Kutai Coal Project was by far the most significant development of the period, and the placing further cemented the support from our institutional investors allowing us to accelerate the drilling programme at EKCP."

We believe that we are well positioned to achieve our core value, which is to create shareholder value, and look forward to the next six months."
